

DME SYNERGISTIC SYSTEMS

CAPABILITY STATEMENT

About DME Synergistic Systems

DME Synergistic Systems (Synergistics) helps to streamline national employment operations by using our network Database of HCP's - operated staffing at locations across the country. We help businesses find the qualified staffing they need from local sources to nationwide while maintaining a single point of contact. Synergistics provides an arrangement where a single staffing firm acts in the manner of a general contractor or "master vendor" to coordinate a client's temporary labor program. MSP services are used to centrally manage all of a client's staffing needs nationwide. The MSP manages all aspects of the procurement process, including providing temporary and contract labor, as well as selecting or recommending third party staffing firms and providing quality and compliance oversight of the services provided.

Core Competencies

Synergistics is a Veteran/Service-Disabled Veteran, minority-owned, JCAHO certified medical services agency specializing in all aspects of healthcare, logistics and administrative staffing. The Synergistics management team is dedicated to fast and accurate service, 24 hours a day/7 days a week. Synergistics maintains the highest quality standards, presenting a Quality Control Plan to the clients that follow JCAHO standards, a client satisfaction survey, and routine meetings as needed to meet each client's individual needs. We also offer a "past performance" report that displays our historical successes in serving various clientele. We tailor our efforts to meet the specific needs of our customers and design procedures to ensure the highest quality of service is given to every client. Synergistics provides physicians, nurses, allied health and ancillary personnel, including:
